

Do it on the roof

## DIY Green Roof Workshop

Led by a green roof builder, ecologist and green roof systems expert

### HANDS ON EXPERIENCE

Got a lonely garden shed that wants a better hair do? Ever dreamed of having your very own green roof? This April, Do it on the Roof is offering a DIY workshop for the people who want practical instruction from experts and hands on experience in installing a green roof.

If you're a DIY enthusiast, or keen to get some guided green roof construction under your belt and make your own green roof, check out our website and book in for an exciting day.

Let's green the city, one roof at a time.

### WHAT'S INVOLVED

During these 1 day workshops, you construct and plant a green roof on a garden shed, first reinforcing its structure. Learn and practice the techniques required to DIY a green roof on your own shed or garage.

The two full day workshops will be held at a private property in Coburg, with all equipment, lunch and beverages provided.

### BOOKINGS

11 and 12 April 2015

Book via the DIY green roof workshop box at [www.doitontheroof.com](http://www.doitontheroof.com)

### COST

\$550 per person

### WORKSHOP LEADERS

Anton Englemayer is an award winning builder who specialises in green infrastructure construction and has created multiple green roofs on his home.

Trevor Edwards is a world renowned ecologist with over 30 years experience in the field.

John Hassall specialises in green roof systems and waste reduction.
