

Leap into Nature is about encouraging and allowing children to connect with nature on a regular basis. Our mission is to get kids outdoors and begin a life-long journey of learning about the natural world and their place in it.

## Services

- Bush Playgroup
- Junior Nature Club
- Environmental education programs for kindergartens and schools
- Consultation

## Testimonials

*"Christina has a wonderful way of helping kids and adults to have fun in nature and learn something along the way too!"*

Lisa and Ava, December 2014

*"Each session, Christina chooses a wonderful location and an appropriate nature focus for the children. She is knowledgeable and passionate about the natural world and instils this enthusiasm in the children."*

Emma and Grace, January 2015

*"The joy and excitement on the faces of those children with the guidance from Christina is priceless. Her knowledge of the wilderness along with her own passion and love for the environment shines through."*

Sally, Lily and Kate, February 2015.

## About Christina Renowden

Christina completed a Bachelor of Conservation Ecology at Deakin University with an Honours research year in 2004, focusing on frogs in urban bushland remnants. Since then, she has worked as a senior zoologist for a flora and fauna consultancy firm in Melbourne for 10 years. Many of the projects were based around urban development where she produced monitoring and conservation management plans for threatened species. Christina also holds a level 2 First Aid and Parks Victoria Tour Operator certificate, and has undergone the Working With Children Check.
