

Wombat Monitoring

Weekend Wombat monitoring at Coles Bay

Friday March 23rd to —Sunday March 25th 2018

What: We'll be undertaking afternoon and night time surveys of wombats and assessing if they are affected by mange. Data gathered on this project assists researchers to understand the prevalence of mange in wombats across Tasmania.

Where: Coles Bay, Freycinet Peninsula, Tasmania. A stunning beachside location on the East Coast

When: 23/03/2018 to 25/03/2018. This is a camping project. All tents and mattresses are provided. BYO sleeping bags and pillows.

Cost: \$80.00 per person. This cost covers transport, food, tools and equipment.
