

Destination Conservation Experience

The Great Ocean Road Victoria

*Help conserve and explore the Great
Ocean Road*

Located not far from Melbourne, The Great Ocean Road is an iconic destination in Victoria, which offers historic sites as well as awe-inspiring natural beauty.

This program uniquely combines conservation and travel along the most famous road-trip experience in Australia. You'll experience a variety of conservation activities in diverse coastal and inland locations. Environments we'll help protect and restore include coastal sand dunes, woodlands, wetlands and other areas of important wildlife habitat.

Koalas, kangaroos and emus are some of the native Australian animals we'll see, while exploring a variety of national parks and waterfalls along the way. We'll also stay in a variety of coastal towns throughout our journey and introduce you to Aboriginal culture at Tower Hill.

Join us to make a difference in one of Australia's most famous coastal locations for nature and heritage.

Make a difference as you travel
